

Agentic AI Lab

Your AI Adoption Accelerator

The future of work is agentic. The Agentic AI Lab is a structured, hands-on engagement designed to help your organization turn agentic AI from concept into impact, fast. Together, we uncover the most valuable opportunities for your organization, validate their feasibility, and bring one to life as a production-ready MVP. By the end of the lab, you'll have a clear roadmap, tested prototypes, and a working solution—equipping you with the confidence and capability to scale agentic AI across your organization.

Turn Ideas Into Action

Prioritize What Moves the Needle

Identify your organization's highest-impact agentic AI opportunities with our proven ROI, complexity, and risk scoring models.

Win Fast and Build Lasting Momentum

Bring low-complexity, high-value ideas to life to demonstrate impact, build stakeholder confidence, and accelerate adoption across your organization.

Execute with Confidence, Deliver Impact

With AltaForge, AltaML's platform of reusable AI agents, we turn your AI roadmap into reality—de-risking the process and fast-tracking implementation to deliver results.

Deliverables

-  Executive Roadmap and Quick-Win Blueprint
-  Prioritized AI Use Case Matrix
-  High-Level Data and Architecture Readiness Assessment
-  AI & Business Case Canvases and Solution Prototype(s)
-  Deployed Agentic AI MVP(s) in Production
-  Technical Documentation and Knowledge Transfer
-  Backlog for Future Feature Development

Your Agentic AI Lab Experience

Phase 1: Use Case Feasibility Assessment and Prioritization

4-5 Weeks

Together, we explore your organization's most promising agentic AI opportunities, aligning them with your strategic goals and evaluating each based on impact, complexity, and feasibility.

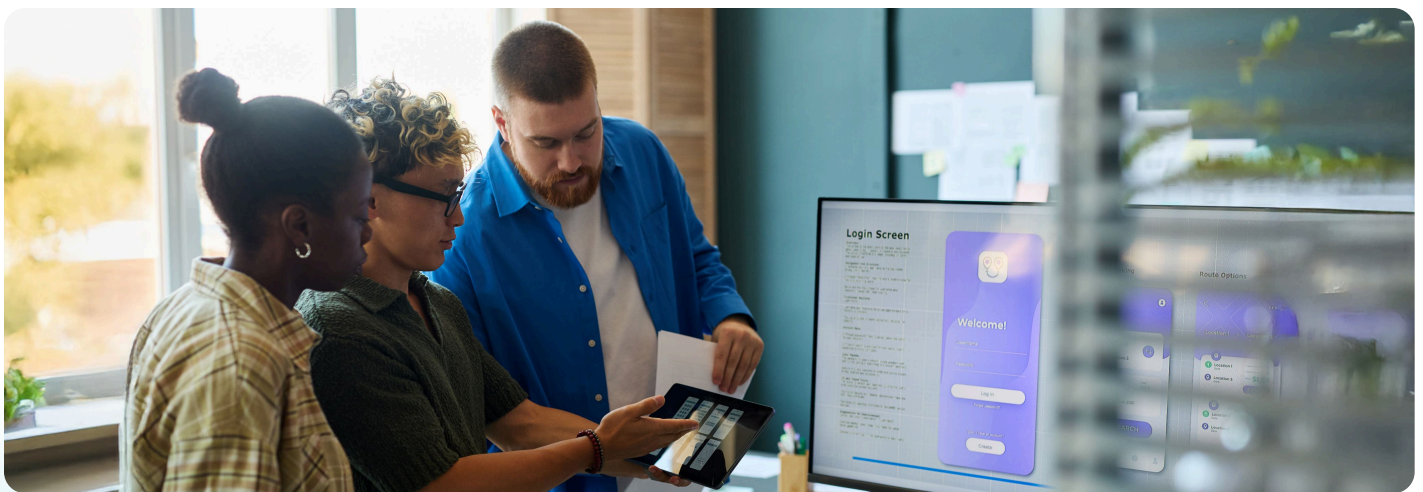

- Prioritize high-value AI opportunities aligned with your strategy.
- Validate technical feasibility and prototype potential solutions.
- Create a practical roadmap of quick wins and long-term initiatives.
- Deliver a clear business case to guide next steps.

Phase 2: Minimum Viable Product (MVP) Development

10-14 Weeks

Once your highest-priority agentic AI opportunity is selected, we bring it to life with agile development and continuous user feedback, turning concepts into a working solution.

- Build a production-ready MVP tailored to your organization's needs.
- Leverage AltaForge, AltaML platform for reusable AI agents, to accelerate development and de-risk implementation.
- Transfer knowledge to your team for ongoing improvements and future projects.
- Deliver a tangible agentic AI solution ready to create measurable impact.
